

Career Services Network Job Posting

Date Posted: August 25, 2010

Name of Company: American Life

American Income Life (AIL) is an international publicly traded company (TMK) that needs new agents to grow with us. We just had our best year ever in 2009 and 2010 will be even better! We are not seeking specific degrees just outgoing and driven folks. We need managers who like to help people and want to continue to grow professionally. AIL sells mainly to our captive audience, unions and other associations. No cold calling involved just meeting with clients that have notified us they want our services. AIL was just named in 2009 by Yahoo/Hotjobs as the #1 insurance company in the US and #41 of the top 100 US companies, and # 30 of the top 100 employers by The Black Collegian, and I could go on and on. Are you looking for a company that gives back to the community? AIL specializes in helping working families, is a large donator to food banks across the US, and our top managers are going to our next convention in 2010 two days early to volunteer to build a house with Habitat for Humanity in New Orleans. You can learn more about us by looking at the following links:
